Dear Sir, I am writing to ask you to reject the bill NBA's petition 04-160. I find when I need traffic and road conditions the best I can get is from XM-Radio. Local coverage is good, but when you need to make an last minute move because of traffic backup the local stations are in the middle of tooting there own horn or trying to sell you something. I pay fpr what I get and really would like to see traffic and weather stay on XM.
